BURNED AREA EMERGENCY REHABILITATION PLAN AND ACCOMPLISHMENT REPORT**

PART F - SPECIFICATIONS

SPECIFICATION TITLE:	NATIONAL REGISTER ELIGIBILITY OF SITE EXPOSED TO POST-FIRE VANDALISM/LOOTING	AGENCY:	BLM Elko F.O.
PART E LINE ITEM:	C-2a Historic Structure Damage Assessment (BLM 98-148 III. K)	FISCAL YEAR(S) (list each year):	2000

I. WORK TO BE DONE

Number and Describe Each Task:	
A.	<p>General Description: The fires have removed the vegetative cover over many areas having high potential for containing significant cultural resources. Removal of vegetation exposes sites to erosion and to illegal artifact collection. In areas where there are standing dead trees, vehicle damage to cultural resources is highly likely as wood cutters create numerous new roads and trails as they gather firewood.</p> <p>Most of the burned areas have not been inventoried for cultural resources. Therefore, it is necessary to inventory the sensitive areas to determine the number and type of sites present so that measures can be taken to protect important cultural resources.</p>
B.	<p>Location (Suitable) Sites: As designated by the Elko Field Office - approximate acres</p>
C.	<p>Design/Construction Specifications:</p> <ol style="list-style-type: none"> 1. Archival research of field office records 2. Conduct field inventory and inventory report in accordance with standard Nevada Class III standards as outlined in the BLM Nevada State Office Cultural Resource Inventory General Guidelines 4th Edition and the Elko Field Office Cultural Resource Stipulations. 3. Implement procedures to monitor and protect sites.
D.	<p>Purpose of Treatment Specifications: Identification, evaluation and protection of irreplaceable cultural, natural and climatic information before it is destroyed by looters, public use or erosion.</p>
